

**REMARKS**

Claims 15-37 and 47-87 are pending in this application.

In an Advisory Action mailed on February 6, 2008, claims 15-37 and 49-83 were indicated as allowed. However, claims 47, 48 and 84-87 were rejected under 35 U.S.C. §101 as allegedly “directed to non-statutory subject matter ... [b]ecause the above claims are not supported by the specification.” (Advisory Action, p. 2) Claims 47 and 48 are drafted in independent form. Claims 84-87 depend therefrom.

As discussed with the Examiner on February 13, 2008, Applicant respectfully submits that support for the rejected claims can be found in the application as originally filed. Nevertheless, as also discussed with the Examiner, by the present amendment, Applicant has amended the application to provide explicit support in the “Summary of the Invention” section of the specification. No new matter has been added. Support for the instant amendment can be found, e.g., in original claims 47 and 48 -- as originally filed, those claims were directed to, inter alia, “an article of manufacture, comprising: a computer readable medium including instructions for ....”. Support for the amendments also can be found, e.g., in FIG. 8 and on pp. 13-14 of the application as originally filed, which together disclose an exemplary mobile terminal according to one embodiment of the present invention as including a CPU 804 and a Memory 806. In view of the foregoing amendments and remarks, Applicant respectfully requests that the rejections be withdrawn.

For the above-stated reasons, this application is respectfully asserted to be in condition for allowance.
